EXPERIENCE

Data Analyst Intern · TechPuro Jan 2026 – May 2026 · 4 months

- Worked on data collection, data cleaning, report generation, and analysis tasks, demonstrating strong analytical skills and adherence to deadlines.
- Learned and applied new tools and technologies related to data analysis while maintaining professionalism and responsibility throughout the internship.

PROJECTS

Mobile Sales Dashboard — Power BI Personal Project · 2026 [GitHub ↗](#)

- Built an interactive Power BI dashboard analysing mobile phone sales data — revenue trends, brand performance, payment methods, and YoY comparisons — tracking Total Sales (769M) and Transactions (4K) with Region/City-wise Map visualisation.
- Compared brand and model-wise performance (Apple, OnePlus, Samsung, and others) and analysed payment method breakdown (UPI, Cards, Cash).
- Implemented Month-to-Date (MTD) tracking and Same Period Last Year comparisons using DAX. Tools: Power BI Desktop, Power Query, DAX.

Customer Behavior & Retail Shopping Trends Analysis Personal Project · 2026 [GitHub ↗](#)

- Executed an end-to-end analytics workflow: cleaned and explored the dataset using Python (Pandas), then loaded it into PostgreSQL and wrote SQL queries to answer key business questions on revenue by category, age group trends, and subscription behaviour.
- Built an interactive Power BI dashboard to visualise customer segments, revenue drivers, and purchasing patterns, and documented findings via a report and a Gamma presentation.
- Delivered the key insight that Young Adults drive the highest revenue share and Clothing is the top-performing category, while only 27% of customers are active subscribers — highlighting a retention opportunity. Tools: Python, Pandas, PostgreSQL, SQL, Power BI, Gamma.
